### MISSION STATEMENT BELIEFS WORK SESSION

Mrs. Aleasia Stewart led the work session discussion on the mission and beliefs of Richmond Community Schools. The audience and board members broke out into groups to answer the following questions:

**This I believe about Learning**

**This I believe about the role of the Teacher**

**This I believe about the role of the Student**

**This I believe about Education**

Then, groups generated statements that encompassed their thoughts behind the questions. A few are shown below:

- Learning is best accomplished when it is a team effort .*
- Education should create possibilities for joyful and engaged learning, teachers to inspire students, and motivate students to surpass their potential.*
- We believe student directed, teacher facilitated education prepares students for life's demands.*
- We all make a difference to strengthen communities, families, and individuals .*
- Education is an enjoyable process where we empower students to be curious and critical thinkers.*
