Board Reports

Karen Scalf provided an update regarding the future Highland Heights. Reid Hospital has expressed a continued interest in purchasing or leasing the property. The Board discussed their next steps. It was determined to move forward with an appraisal of the property. A resolution stating that Highland Heights is no longer used for educational purposes will be brought to the Board.

Dr. Betty Poindexter provided information regarding the high ability report. One of the recommendations is to maintain a high ability program for the third graders at Hibberd. Before the end of the school year, second graders were tested and a cohort of 25 students has been selected to participate in the program. Parents will be notified by mail for an invitation for their child to participate in the cohort.
