Board Reports / Old Business

Beginning of School Update

It has been a great start to the school year; the teachers and students have jumped right in and have had a smooth transition from summer to the start of the school year.

It is nice to see that moving the school boundaries are working so well. Class sizes are smaller and the school's enrollment has leveled. Transportation did an outstanding job with the boundary changes, new students and the road construction that can change from morning to afternoon. Drivers do a great job working with each other and making sure the students reach their proper destinations. If parents have transportation issues they need help resolving please call Rob Tidrow at 765-973-5400 or the Bus Garage.

Laptop rollout at the High School and the Intermediates went very well. All the students were very helpful in the process.

Breakfast participation at the high school has traditionally been very low because students arrive at school and want to socialize with friends or come in just in time to get to class. Maggie LaRue, Food Services Director, worked with Rae Woolpy and Rusty Hensley to come up with a solution so more of the students would be able to eat breakfast. The High School now offers a Grab and Go breakfast so that students can grab something quick and take it with them to eat on the way to class.
