

Community Input Meeting – November 9th Fairview Elementary 43 in attendance

Capacity Analysis

1. Comment: The capacity numbers not on the website. Will there be more clarification on the capacity numbers? Answer, this PowerPoint will be on by Monday.

Building Evaluations

1. Comment: I notice a lot of green on the survey. Are you okay with the yellow areas? Are they functional? Answer, in most cases the yellow or orange is already on a work order or known about.
2. Comment: I see that you have a 4 (red) all across for technology but not in other areas.

General Comments

1. Comment: I know the High School needs a lot of work. My concern is when renovation is done that we will lose the neatness of our building. I am very proud of our High School especially when I go into others across Indiana.
2. Comment: Will you be renovating the High school first? All schools eventually?
3. Comment: If you are planning on doing renovations or building changes, how will you determined what you are going to do? Will the staff in the buildings be asked for their opinions?
